## Table of contents:

1. compatibility list CaliHeat connection outlet parking heater (page 2)
2. compatibility list CaliHeat adapter pop-up roof top (page 3)
3. installation requirements / components of the CaliHeat EB 60 (page 4)
4. installation requirements / components of the CaliHeat WB 60 (page 5)
5. mounting Prerequisite for mounting the magnetic adapter (page 6)

Compatibility list CaliHeat connection outlet parking heater

CaliHeat Adapter	Designation	Vehicle	Mounting location for auxiliary heater outlet
	CaliHeat V2 Article number: 0401.02.00	VW California models and VW Camper with matching outlet grille in the B-pillar	
	CaliHeat MP Article number: 0409.01.00	For Marco Polo Camper from model year 2014 with auxiliary heating outlet in the seat box	
	CaliHeat EB60 Article number: • Hose connection - 1901.01.00 • base plate - 1902.01.00 • Adapter diffuser - 1903.01.00	For all campers with 60 mm Eberspächer parking heater outlet  For details see installation requirements (page 4)	
	CaliHeat WB60 Article number: • Hose connection - 1901.01.00 • base plate - 1903.01.00 • Adapter diffuser - 1904.01.00	For all campers with 60 mm Webasto parking heater outlet  For details see installation requirements (page 5)	

Compatibility list CaliHeat adapter pop-up roof top

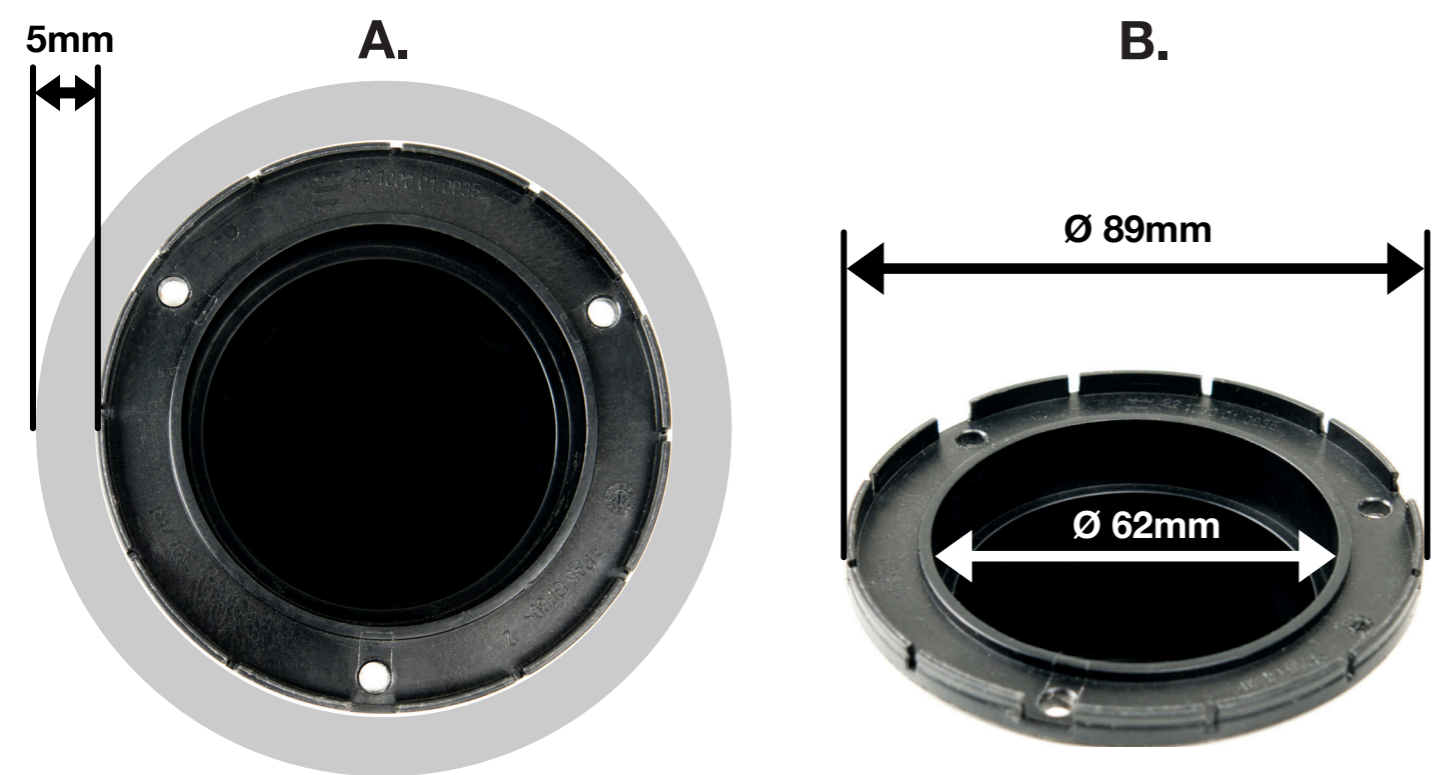

CaliHeat Adapter	Designation	Vehicle	Installation of pop-up roof
	CaliHeat Clamp adapter Article number: • Standard variant - 0402.01.00 • Bajonett Line - 0803.01.00 • Bayonet connection Hose - 0802.01.00	Suitable for VW California models T5 - T6.1 with original pop-up roof with louvre in the ascent.	
	CaliHeat Magnetic adapters Article number: • Standard variant - 0403.01.00 • Bajonett Line - 0804.01.00 • Bayonet connection Hose - 0802.01.00	Suitable for all campers with pop-up roof that have a straight surface to which the metal discs can be attached.  For details, see installation requirements (page 6)	
	CaliHeat Rope adapter Article number: • Bajonett Line - 0805.01.00 • Bayonet connection Hose - 0802.01.00	Suitable for all campers with pop-up roofs that have an attachment option in the roof.  e.g. handles, straps, etc. to which a carabiner can be attached or looped in.	

**Components CaliHeat EB 60**

- 1. existing air outlet Eberspächer
- 2. adapter bracket EB60 for outlets Art.-Nr.: 1903.01.00
- 3. hose connection Art.-Nr.: 1901.01.00
- 4. base plate EB60 Art.-Nr.: 1902.01.00
- 5. outlet auxiliary heater Eberspächer 60mm

- A. Minimum distance to vehicle panelling
- B. Dimensions of parking heater outlet

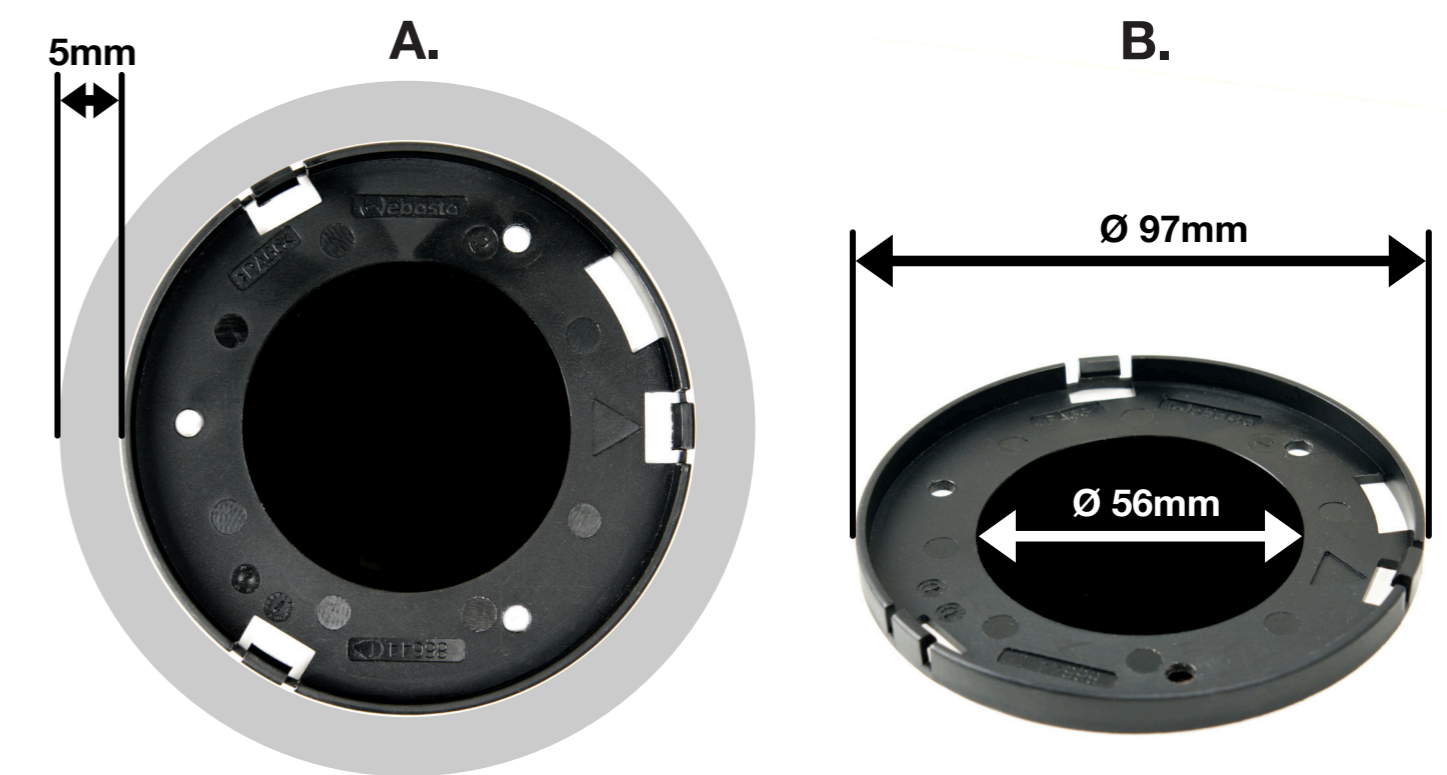

**Components CaliHeat WB 60**

- 1. existing Webasto air vent
- 2. adapter bracket WB60 for air outlet Art.-Nr.: 1904.01.00
- 3. hose connection Art.-Nr.: 1901.01.00
- 4. base plate WB60 Art.-Nr.: 1903.01.00
- 5. outlet auxiliary heater Webasto 60mm

- A. Minimum distance to vehicle panelling
- B. Dimensions of parking heater outlet

## Mounting Prerequisite for mounting the magnetic adapter

### Space required for mounting the metal disc

The contact surface must be at least 30 mm.

Fit the metal discs as close as possible to the edge towards the interior.
